# Our life together

We want to start by letting you know how amazing you are by letting your child grow through life with us if you choose. You have made a dream come true in our life.

We love being parents to our **adopted** daughter Lauren.

She will be ecstatic to get a sibling, and we are excited too.

Making a decision to let your baby grow in another family's life is such a selfless act, and

you should be very proud of the person you are.

We hope you enjoy getting to know a little about us as you read our family profile.

## Our story

We met in college through mutual friends at a restaurant in 2004. We were both going out with our friends, and when we met for the first time, we both felt butterflies in our stomachs. We really haven't been apart since that night. We went on dates and quickly realized we both had a passion for family and sports. We were married in a country church close to where Katie grew up surrounded by many friends and family.

We spend most of our time doing family things together. We live close to each other's families and like to go to our niece/nephews' events.

Katie only works four days a week and has the privilege of staying home with Lauren on Fridays.

We live in a small town on a lake. It is beautiful and perfect for family activities such as boating, grilling, wading in the water, and swimming with family and friends. We also enjoy going to the local sports teams' games. We love the small

community interactions and feel like one big family. We all watch out for each other.

Our greatest enjoyment in our life so far has been adopting our daughter Lauren in 2015, and we are excited to complete our family with a sibling for Lauren. We assure you they are going to grow up together in a great family environment.

Katie is a very responsible, fun, outgoing family-oriented person. She amazes me every day with the compassion she has for our daughter, family and friends. I fall in love with her more and more every day through the kindness she shows for people. She is always willing to give 110% in everything she does just to make other people feel welcome.

Katie works as a mammogram technician. She loves to show compassion to the women she works with and help increase their awareness about breast cancer. She loves the interaction with each one of her patients throughout the day.

She has always loved watching the Lakers, 49ers, and Huskers, and so have I. I just know she will love going to activities for Lauren and our future child.

I felt like I struck gold the first time I laid eyes on her and knew I found what I was looking for in a wife from the first time. She works hard to give Lauren and me the love we cherish. I know she will give your child the most nurturing, fun, successful life that your child deserves.

## Through Katie's Eyes

Jerry is the greatest man I have ever met (probably why I married him).

I am proud to say that Jerry works unbelievably hard to provide and care for our family. Lauren and I are very spoiled by the care and love he provides us.

Jerry very much loves owning his own construction business and making it better and better every year, just as he does for Lauren and me. Jerry will do whatever it takes to ensure Lauren and I have what we need.

He shares the love of my favorite sports teams with me. He's also a very goal-oriented guy. He sets a goal and will do everything he can do to achieve it. By Lauren and our future child seeing that, I know they will be successful in life too.

Jerry is such a great daddy to our adoptive daughter Lauren. He just has that twinkle in his eye when he's spending time with her.

1. Hiking

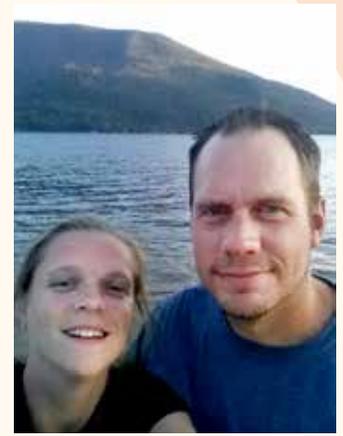

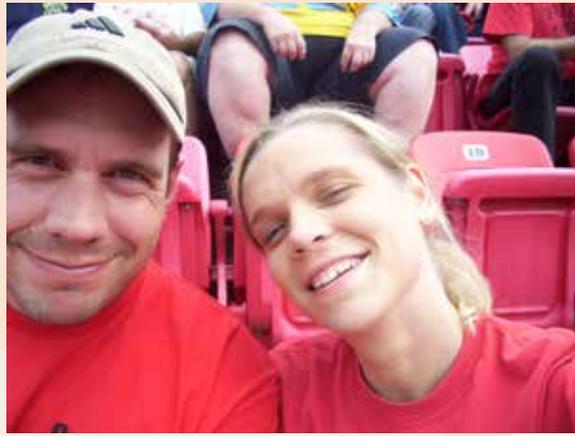

2. Growing his construction business

3. Fixer-upper projects

4. Making Lauren and Katie happy

5. Working out

## What ADOPTION means to us

Adoption is a wonderful thing and such a selfless act someone can do for another family. We have been through it before and cannot say enough how fulfilling and amazing it is.

You should feel so proud of yourself as you go through life knowing you fulfilled someone's dream. This child will begin to know the great person who gave birth to them.

# What we HOPE to offer a CHILD

If you choose us you will have no worries about your baby getting all the love and nurturing a child deserves. Family is a wonderful gift from God, and we cherish it.

Your child will have so many friends and family around for full support, as Lauren does now. We will make sure your child has goals in life and will help fulfill them. We will raise them to be kind, responsible and strong, because we think those values are very important for a well-rounded person. Your child will know how special they are every day through the care we will provide.

Thank  
you

We appreciate your consideration in our profile. We have so much love to offer your child in completing our family. We think you already know what a special person you are by making this choice.

If you choose us, we hope you know your child will not only have a loving family but also a best friend in our daughter Lauren.

Thank you so much, and we can't wait to meet you and your child soon.
