

**Meet
Andy & Jenny**

Dear Expectant Mom,

We so very much appreciate you considering adoption for your baby. If we are a match, we promise to always choose our child first and love and care for them. In the moments we aren't perfect we promise to learn and do better. We will teach our child to be adventurous and empathetic. We can never truly understand your emotions through this, but we want to support you. If you desire an open or semi open adoption, we will work with you to share our child's wonderful memories and include you too. We thank you for taking the time to consider us.

With love,

Andy & Jenny

What lead us to adoption:

We began considering alternative ways to grow our family after Jenny's back surgery. Initially we began the process of fostering to adopt then quickly decided we wanted a child to become a forever member of our family. We instantly knew that growing our family through adoption was meant for us. While we don't have a diagnosis to prevent us from carrying our own child, the more we talked about it, the more we knew it was the right choice for us. Now it is in our hearts and we know this is the way we are meant to grow our family.

About Us:

We met in March 2013 while Jenny was on a terrible date and Andy swooped in to save her. We both grew up in small towns, but thousands of miles apart, Andy in South Dakota and Jenny in California. We were lucky our lives brought us together that one night. We knew pretty quickly that this was it, but we took time to be with each other before getting married in August 2015.

During our time dating and engaged, we began forming our family with Andy's twin girls, Hannah and Emma, and with our dogs, cats, and foster dogs. Jenny also had back surgery during this time which really showed us that we can get through anything together.

Fast forward to now, we have lived in Kentucky for about 4 years and enjoy the serenity of our home and the energy of our kids and pets. We have chosen to adopt because it feels right in our hearts as the best way to grow our family. In our family it is important to us to share love, always communicate and be honest, trust one another and support each other.

Favorite Movie: Remember the Titans

Favorite Hobbies: Riding horses, Going to the dog park, Camping, Playing board games, Going to the Zoo, Spending time with family and friends, and Trying different foods

OUR WEDDING DAY WITH FAMILY AND FRIENDS

Meet Hannah & Emma

Hannah and Emma are our twin girls, 12 going on 13. They are both kind and silly girls with personalities of their own.

Emma (is the blonde) she has a true love for the outdoors and animals. She has a creative side and is very patient. She will spend hours outside creating structures with fallen branches and will also spend hours inside playing with the cats and dogs.

Hannah (is the brunette)

loves playing the ukulele and studying hard in school, she wants to be a doctor when she grows up and is already planning for it. She loves to learn about cooking and baking, in her spare time she likes reviewing recipes and watching cooking shows.

They both love reading all types of books and will Spend hours reading each day.

They're each other's friend and enjoy making Lego creations together along with inventing and playing games.

They spend time with us during their summer and winter breaks, and live the rest of their time in Washington with their mom.

They've both expressed excitement about adding a little sibling to our family.

Spending family time with Hannah and Emma at the zoo

Our Home and Pets:

We live in Kentucky, bought our home in 2017, and have enjoyed making this house a home. We have a couple of acres to roam outside as well. We have also done a few projects here and there, like adding a stairwell, garden, fenced yard, and fire pit, but the biggest project to date was remodeling our bathroom to make it more comfortable for all that use it. We've done a majority of the projects on our own, but Jenny's Dad was welcomed help with the fence.

We enjoy having guests come to visit and spend time in our home. We've got great neighbors, who actually grew up in our home and enjoy telling us stories about their childhood. We are so lucky to call this house our home.

We love spending time with our pets. We enjoy taking the dogs camping and watching all 4 of them playing together. We love to share with them the unconditional love they share with us. They're all so good with kids and love spending time with children.

Our pets are:

Licorice- 15-year-old mutt, Jenny has had her since she was a puppy, she loves walks and camping.

Jack- 5-year-old pit mix, he loves attention and wearing bandanas

Biscuit- 6-year-old cat, she loves talking to the dogs and people and nice pets

Buckie: 3-year-old cat, he loves to be in on the action and cuddles

Our Home

Our Family:

Jenny has a great relationship with her family. She grew up riding horses and raising livestock with her mom and her dad helping with sports. Her family has a tradition to get together every Thanksgiving at her grandma's house in southern California.

Her sister is a best friend and they talk almost daily. They usually share Christmas traditions together like making cinnamon rolls and doing a Christmas puzzle. Jenny also has a couple of close friends and their families that are more extended families than just friends.

Andy stays in close contact with his family and enjoys seeing them throughout the year. He grew up getting to be close to all 39 first cousins and spending time on his grandparent's farm. They still get together for all major holidays and huge family reunions that can involve over 400 family members. Most of Andy's family lives in South Dakota. His family enjoys anything to do with the outdoors. This last summer his mom rented a cabin on a big lake in Iowa and they enjoyed boating and fishing.

Thank you for taking the time to learn about us.

We wish the best for you and your baby during your adoption journey.

Andy & Jenny
